- ◆ Firefighter*
- ◆ Horticulture
- ◆ Police Science - Crime Scene Investigation*

- ◆ Power Transmission and Distribution Technology*
- ◆ Programming
- ◆ Public Service*
- ◆ Retail Floral Design
- ◆ Surveying Core Technical*

Cooperative, Articulation, Higher Education and 2+2 Agreements

In an effort to reduce the time it takes a student to complete a degree, OSU-Oklahoma City has partnered with various Oklahoma technology centers to allow students to earn college credit while attending qualifying technology center programs. Please see your counselor or academic advisor for details.

In addition, OSU-Oklahoma City fully supports the Oklahoma State Regents for Higher Education Articulation Agreements and other initiatives designed to facilitate transfer among Oklahoma institutions of higher education. Please see your counselor or academic advisor for details.

Finish Orange

Finish Orange offers students greater opportunities to create their own path within the OSU family. We have several programs that can seamlessly transfer to OSU-Stillwater and OSU-Tulsa allowing students to turn their associate degrees into a bachelor's degree.

Finish Orange also allows for a reverse transfer, meaning students who have earned credit at the Stillwater or Tulsa campuses can transfer those credit hours to OSU-Oklahoma City.

2+2 Agreements

A 2+2 agreement allows an associate degree to be applied directly to the first two years of a bachelor's degree program. For more information and for our current agreements with

other colleges and universities, please visit <https://osuokc.edu/academics/articulation>.

Career Technology Partnerships

Under the leadership and guidance of the Oklahoma State Regents for Higher Education, OSU-Oklahoma City has partnered with various Oklahoma career technology centers to forge a partnership that allows high school and adult students in various programs the opportunity to earn college credit through Prior Learning Assessment.

The partnership has multiple goals: (1) get more high school students into college, (2) get more adults to continue their education or begin college, (3) expand access to postsecondary education, and (4) efficiently use federal, state and local resources. The driving principle is to be student-centered, not institution-centered.

Distance Learning

Distance learning courses at OSU-OKC provide students with additional scheduling options to achieve their learning goals and are offered in three formats:

- ◆ **Online (WEB):** Courses in which 100% of instruction occurs online.
- ◆ **Hybrid (HY):** Courses in which at least 75% of instruction time occurs online, with remaining instruction occurring face-to-face.
- ◆ **Blended (BL):** Courses in which 25% to 74% of instruction time occurs online, with remaining instruction occurring face-to-face.

These courses give students the flexibility to learn when and where it is most convenient for them. OSU-OKC's distance learning courses are designed to build interactive learning communities which support student learning.

Online courses are not self-paced, assignments and tests have instructor-set deadlines. Successful online students are self-motivated and independent people who can manage their time and can take responsibility for their learning.

For more information on distance learning, including online courses, contact the Center for Teaching and Learning Excellence at (405) 945-9189.

For additional course availability and program information:

Contact the Enrollment Management Office or visit the OSU-Oklahoma City website (www.osuokc.edu). For specific information regarding the Internet-based delivery systems or operational specifications contact the Center for Teaching and Learning Excellence at (405) 945-9189.
